# Lionel Cosin Day Unit & Daily Diagnostic Unit

Welcome to the **Lionel Cosin Day Unit** and **Daily Diagnostic Unit** which is on Level 4 of the main John Radcliffe Hospital. The Lionel Cosin Day Unit aims to provide a friendly and holistic service. The two main areas for referral to our clinics are outpatient referrals from primary care, or inpatient referrals and the Daily Diagnostic Unit.

**Clinics include:**

- Gerontology
- Movement Disorder
- TIA (transient ischemic attack)
- Memory
- Falls
- OXVASC (vascular)
- DENDRON (research / dementia).

The **Lionel Cosin Day Unit** is staffed by a team of nurses. Patients attending the Lionel Cosin Day Unit usually see at least two members of our team – for example: nurses, doctors or specialist nurses.

The **Daily Diagnostic Unit** provides services to patients who have recently been discharged from a ward or from their acute admission. They may require medical reviews, repeat blood tests, scans or IV antibiotics.

Follow-up appointments or referrals to other healthcare professionals are arranged if needed.

Hot and cold drinks are available throughout the day, and a light lunch is provided if required. There is no charge for this.

At the **Lionel Cosin Day Unit** we aim to provide specialist health services for older people – these include both identifying the causes of health problems and also providing advice and help with treatment:

- prevent unnecessary admission to hospital
- help patients remain in their own environment/home
- help maintain independence
- provide carer information
- liaise with other agencies.

## **Find us and contact us**

The Lionel Cosin Day Unit is based on Level 4 of the John Radcliffe Hospital main building.

### **How to find the John Radcliffe Hospital**

Please come in through the Level 2 main entrance and carry on along the main corridor to the lift lobby. From there, please take a lift up to Level 4 and look to the side for a sign:

#### **Lionel Cosin Day Unit**

#### **Daily Diagnostic Unit**
